

# SUDIP BANIYA

Full Stack Developer

## ABOUT ME

Highly motivated Full Stack Developer with strong expertise in modern JavaScript ecosystems, cloud infrastructure, and scalable system design. Over the past 4 years, I have been responsible for developing end-to-end applications, architecting backend services, implementing microservice and serverless solutions, and managing cloud deployments on AWS. Proficient in React.js, Next.js, Node.js, Express.js, PostgreSQL, MongoDB, Docker, Redis, Kafka, RabbitMQ, and CI/CD automation. Adept at building secure, scalable, and production-ready applications with a strong focus on performance and maintainability.
